Hanover Logistics Named 2015 Food Logistics Top 3PL & Cold Storage Provider

Hanover, PA August 17, 2015 – Hanover Logistics is pleased to announce they have been named as a Food Logistics Magazine 2015 Top 3PL & Cold Storage Provider for the fifth year in a row.

Food Logistics, the only publication dedicated exclusively to global supply chain solutions for the food and beverage industry announced the companies chosen for its 2015 Top 3PL & Cold Storage Providers list. The Top 3PL & Cold Storage Providers serves as a resource guide of third-party logistics and cold storage providers whose products and services are critical for companies in the global food and beverage supply chain.

“We are pleased to be named a Top Provider again this year” says Kevin Davis, Director of Logistics at Hanover Logistics. “This has already been an exciting year for us with the purchase of 348/350 Poplar Street, a 425,000 square foot dry warehouse space with multi-tenant use. We’re seeing our company evolve and grow thanks to the support of our staff and the expanding 3PL industry as a whole. The trucking and distribution side of our business has also been in high demand and we’re currently looking to hire more drivers. It is always appreciated when our dedication to the services we have consistently provided is recognized.”

“Food safety is one of the biggest issues for today’s 3PLs and cold storage providers, who are confronted with new demands from consumers, customers and regulatory compliance requirements as a result of the Food Safety and Modernization Act,” noted Lara L. Sowinski, editor-in-chief for Food Logistics. “The companies on Food Logistics’ 2015 Top 3PL & Cold Storage Providers list are among those in our industry who are expanding their portfolio of services to meet these new demands related to food safety while simultaneously assuring cold chain integrity.”
